1. Choose command "Add Purchase"

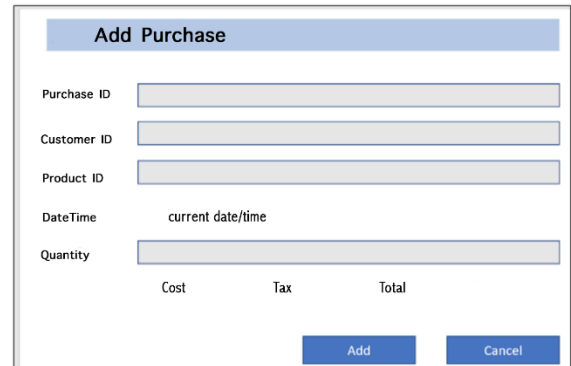

Main screen:

The main screen of the Store Management System is a white rectangular box with a black border. At the top center, the text "Store Management System" is displayed. Below the text, there are three blue rectangular buttons arranged horizontally. Each button contains the text "Add Product", "Add Customer", and "Add Purchase" respectively.

2. Display "Add Purchase" screen

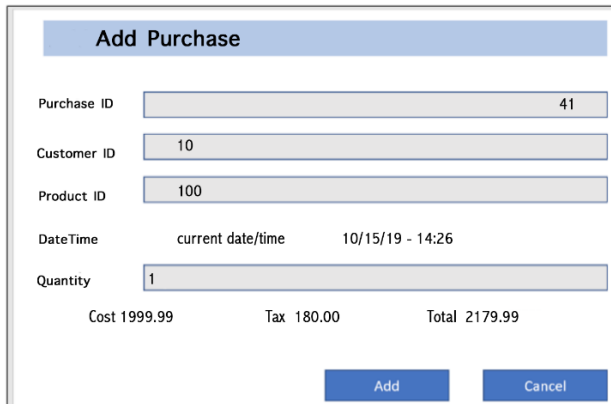

"Add Purchase" screen:

The "Add Purchase" screen is a white rectangular box with a black border. At the top, there is a blue header bar with the text "Add Purchase". Below the header, there are several input fields and labels. On the left, the labels "Purchase ID", "Customer ID", "Product ID", "DateTime", and "Quantity" are listed vertically. To the right of each label is a corresponding input field. The "Purchase ID" field contains the value "41". The "Customer ID" field contains the value "10". The "Product ID" field contains the value "100". The "DateTime" field contains the value "current date/time". The "Quantity" field contains the value "1". Below the input fields, there are three labels: "Cost", "Tax", and "Total". The "Cost" label is positioned below the "Purchase ID" field, the "Tax" label is below the "Customer ID" field, and the "Total" label is below the "Product ID" field. At the bottom right of the screen, there are two blue buttons: "Add" and "Cancel".

3. Input data then click "Add" button

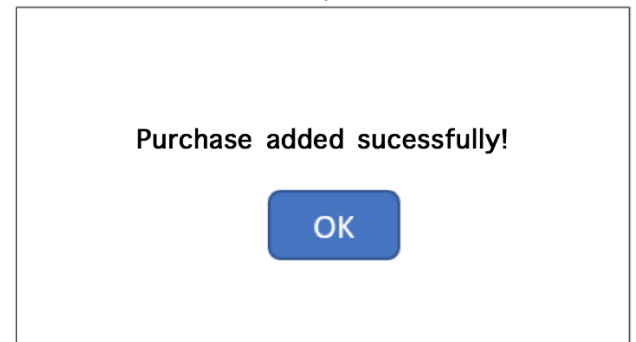

"Add Purchase" screen with data:

The "Add Purchase" screen is shown with data entered into the input fields. The "Purchase ID" field contains the value "41". The "Customer ID" field contains the value "10". The "Product ID" field contains the value "100". The "DateTime" field contains the value "current date/time 10/15/19 - 14:26". The "Quantity" field contains the value "1". Below the input fields, there are three labels: "Cost", "Tax", and "Total". The "Cost" label is positioned below the "Purchase ID" field, the "Tax" label is below the "Customer ID" field, and the "Total" label is below the "Product ID" field. At the bottom right of the screen, there are two blue buttons: "Add" and "Cancel".

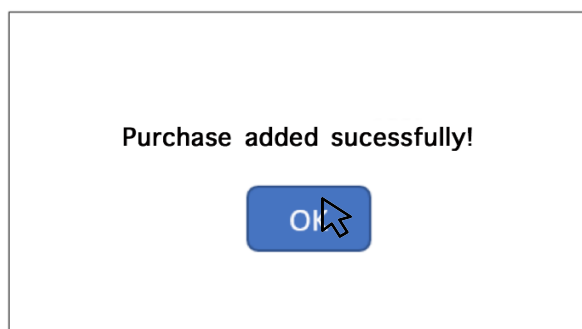

4. Hide "Add Purchase" screen and display "Add Purchase Successfully" screen:

"Add Purchase Successfully" screen:

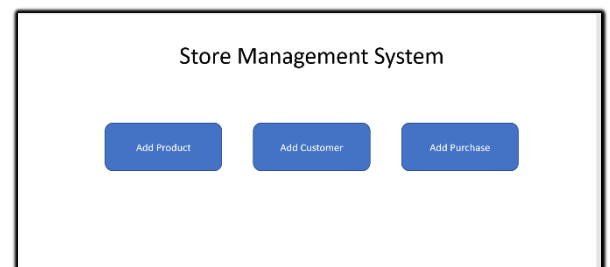

The "Add Purchase Successfully" screen is a white rectangular box with a black border. At the top center, the text "Purchase added sucessfully!" is displayed. Below the text, there is a blue rectangular button with the text "OK".

5. Click on "OK" button:

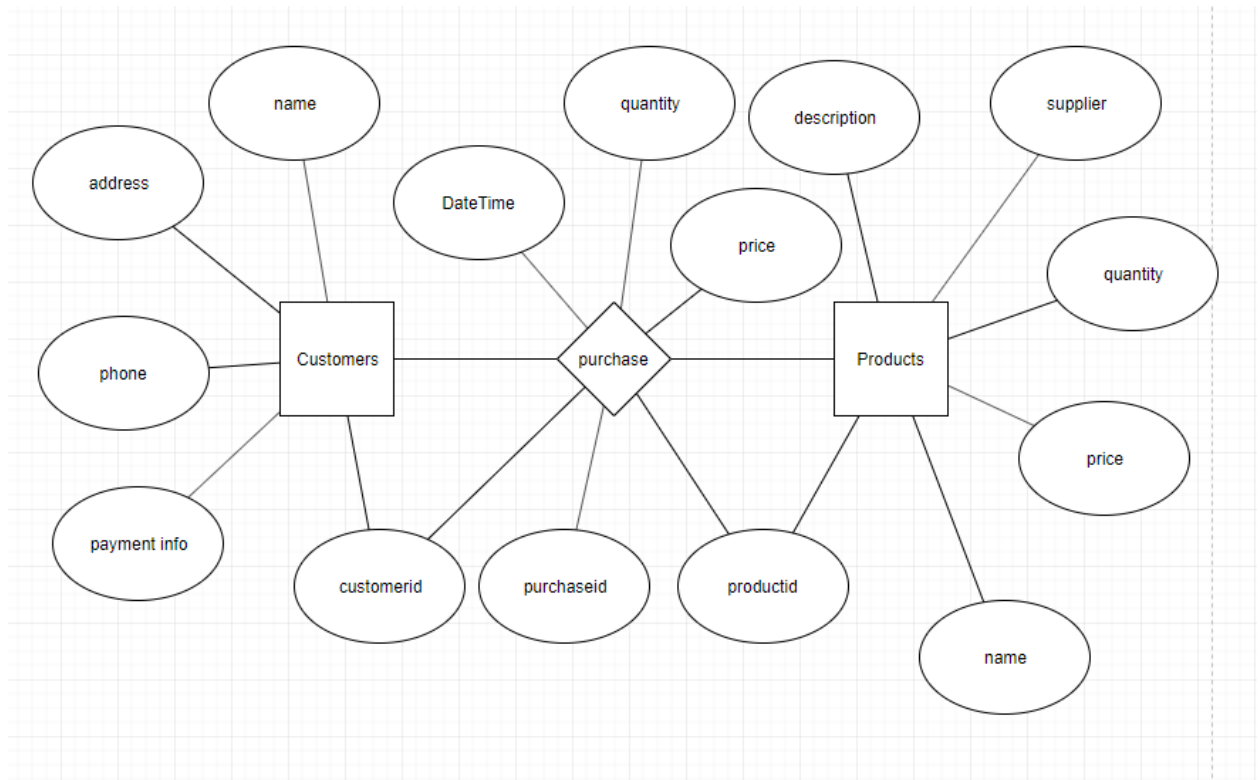

The "Add Purchase Successfully" screen is shown with a mouse cursor clicking on the "OK" button. The text "Purchase added sucessfully!" is displayed at the top center. Below the text, there is a blue rectangular button with the text "OK". A black mouse cursor is positioned over the "OK" button.

6. Display "Main" screen

The main screen of the Store Management System is a white rectangular box with a black border. At the top center, the text "Store Management System" is displayed. Below the text, there are three blue rectangular buttons arranged horizontally. Each button contains the text "Add Product", "Add Customer", and "Add Purchase" respectively.

Products: all you want to sell

- name, productid, price, quantity, supplier, description
- Primary key being productid

Customers: people who purchase products
